## Gibbon Gestation?

What is gestation? You will often see this word when learning about animals.

Gestation is the time taken for a baby to develop before it is born.

The average human gestation is 280 days.

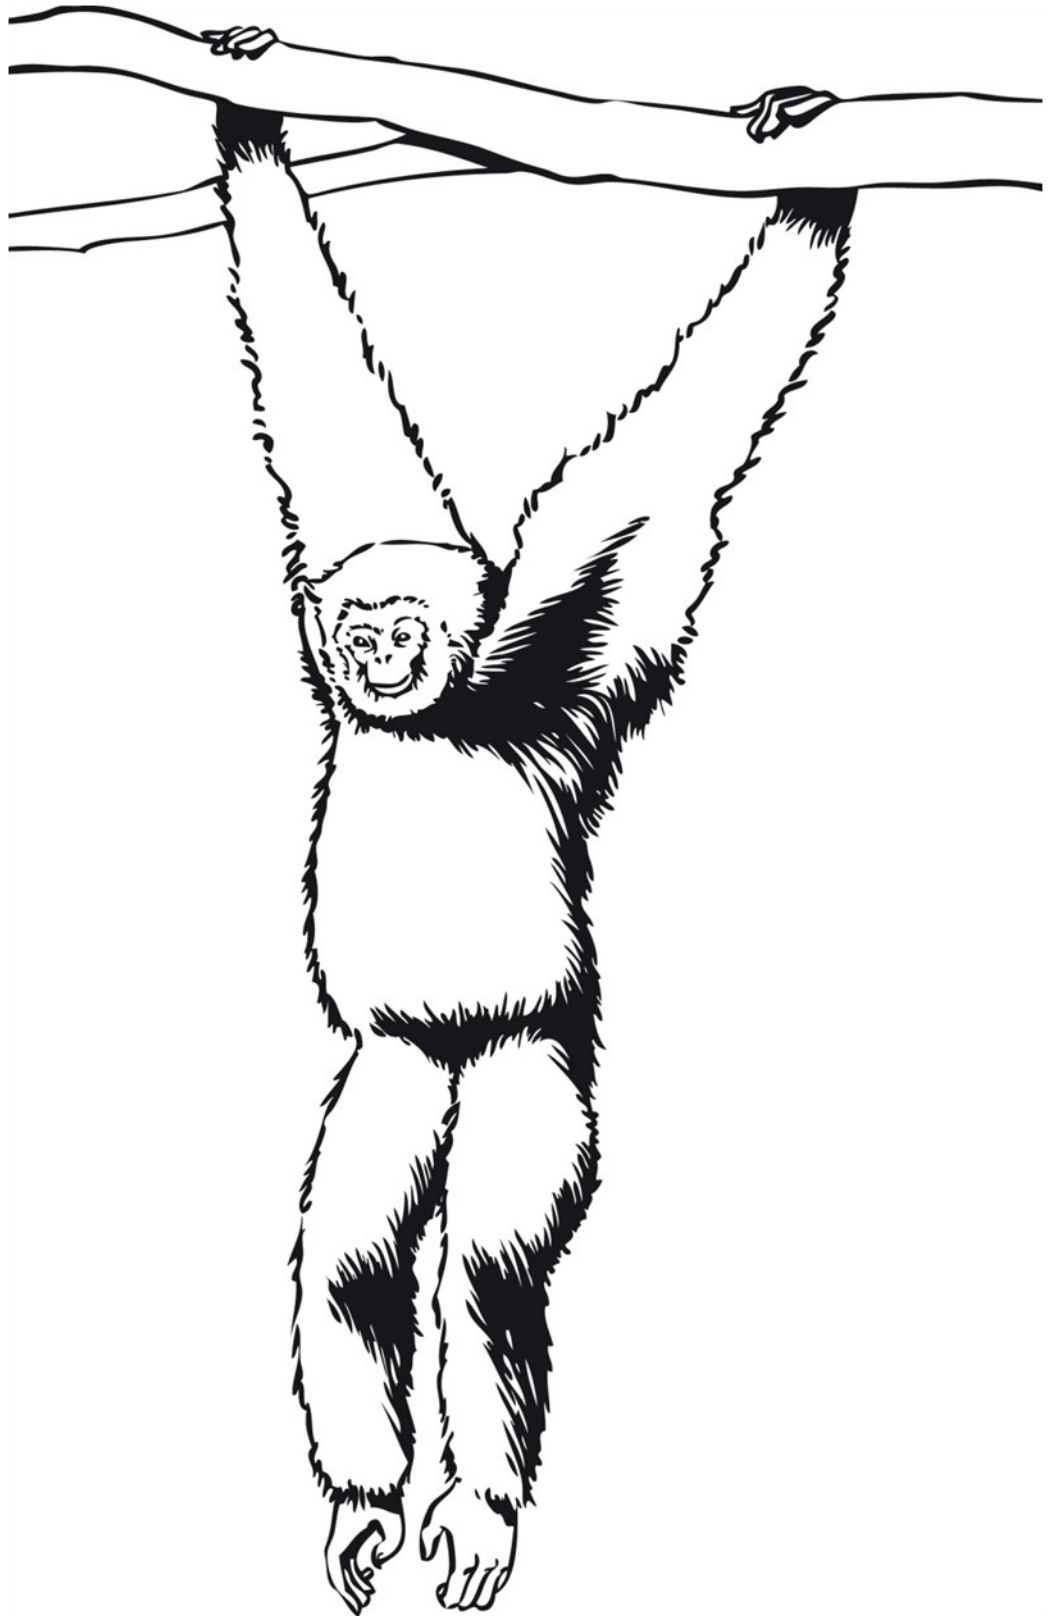

Cross out the numbers that you see more than once and then add up the rest to find out what the average gestation of a Silvery gibbon is!

60	15	40
10	60	5
55	30	45
5	35	50
20	55	25
15	35	10

Is a Silvery gibbon's gestation longer or shorter than a human's gestation?

Colour in this Silvery gibbon

## *Hanging around my Habitat*

*Can you draw a forest for this Silvery gibbon to swing through?*

## *Silvery Gibbon Secrets!*

Where is this Silvery gibbon going?
